

SAYBROOK  
POINT  
RESORT & MARINA

# CONNECTICUTS FIRST GREEN CERTIFIED HOTEL

---

Being green has always been a priority for Saybrook Point Resort & Marina. We understand that the earth is an incredible resource, and we want to preserve it for years and generations to come. Some of our green efforts at the resort include:

- Energy efficient lighting
- Paper, plastic, glass, metal and cardboard recycling
- Geomatrix soil air technology
- Natural gas cogeneration plant
- Waste water disinfection by ultraviolet light, not chlorine
- Energy efficient & chemical-free Dolphin cooling tower treatment system
- Green seal recycled in room paper products
- HVAC: energy management system which manages energy consumption
- Kitchen grease recycling to biofuel program
- CoGeneration plant reduces by 50% our presence on the grid
